Social Prescriber**

## Please take a copy

You may see it as a part of your life or your duty to care for your Mum or Dad, your partner, your child or friend, but there may be times when you need information, advice or some extra help.

When you are a carer it is often difficult to have a real break because someone depends on you to look after them. You can get tired and run down, and your health may possibly suffer.

Telling your Surgery can help them to support you and make sure that you yourself get the right sort of care. **You are important too,**

Your Surgery is trying to trace all those patients who are carers and set up a carers' register. This will mean that carers like you are known to the surgery and steps are taken to support them.

**If you want your doctor to know that you are a carer, fill in the form opposite and hand it in at the practice. Then your name can be added to the Carers' Register.**
